Designers

Marcel Wanders

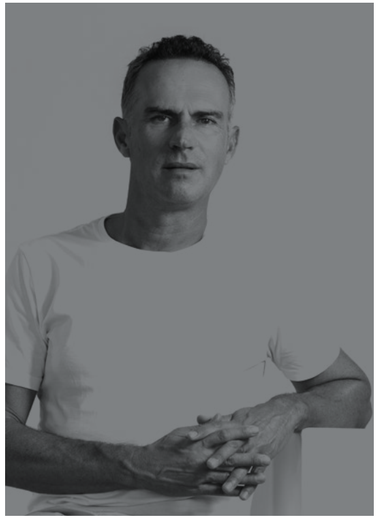

Suave, Venus.

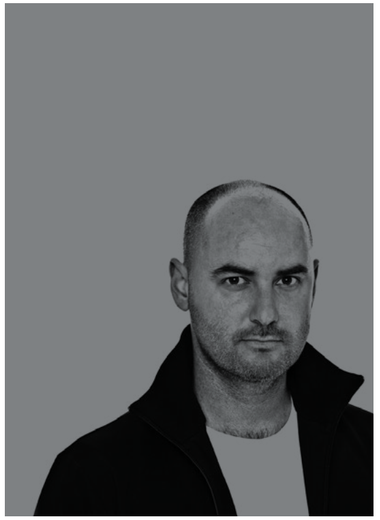

Born in Boxtel, Wanders graduated cum laude from the Hogeschool voor de Kunsten Institute of the Arts Arnhem in 1988 after being expelled from the Design Academy Eindhoven.
In 2000 he opened his studio in Amsterdam, gaining attention in 1996 with his Knotted Chair, which paired high tech materials with 'low tech' production methods and in 2001 Wanders co-founded the design label Moooi., of which he is co-owner and art director.
Marcel Wanders' chief concern is bringing the human touch back to design, ushering in what he calls design's 'new age;' in which designer, craftsperson and user are reunited. In his process, Marcel Wanders defies design dogma, preferring instead to focus on holistic solutions rather than the technocratic. In this universe, the coldness of industrialism is replaced instead by the poetry, fantasy and romance of different ages, vividly brought to life in the contemporary moment.

Ramón Esteve

Tablet, Pixel, Gatsby, Kimono, Faz, Frame, Quartz, Ulm, Vineyard, Vela.

Ramón Esteve Cambra is Architect and Designer, arising one facet as a consequence of the other. In 1991, he founded Ramón Esteve Estudio with the premise that architecture is a global discipline. His training as an architect became a transversal vision where Architecture and Design form one single concept, almost inseparable, both generated under the same laws and the same design premises. Its aim is the development of complete environments through a mutual interaction between both disciplines, so design acts on architecture and vice versa and the importance and difficulty of both disciplines are equally acknowledged.

Eugeni Quitllet

Ibiza, Love, Bum-Bum, Africa, Brooklyn, Wall Street, Mari-sol, Pedrera, Bloom, Manta.

The Catalan designer Eugeni Quitllet was born on 17th April 1972 in Ibiza. He graduated from 'La Llotja' art school in Barcelona. Through his creative vocabulary he exceeds simple relationships between function and style unveiling innovative objects. Between drawing, sculpture and contemporary archaeology, Quitllet literally reveals silhouettes hidden in the material, extremely visual skeletal objects elegantly master fullness and emptiness often with a touch of humour: the Masters chair combines the 3 contours of legendary seats by Eames, Saarineen and Jacobsen, the K Ray lamp is an organic UFO, a network of veins hol – lowed out of the material which results in an object suspended in a frame, his signature method prevalent naturally in several of the designer ' s projects: the Shine vases, the Light Air lamp, the 0'Clock lamp, without forgetting the O Ring watch, a hole in time in the true sense, best seller of the brand Fossil modernising watchmaking codes. Eugeni Quitllet is a design world freak capable of devouring the whole of our environment in his own way to serve it up to us transformed .

Fabio Novembre

And, F3.

He was born in Lecce in 1966. He moved to Milan in 1984, where in 1992 he received a degree in architecture. I n 1993 he lived in New York City where he attended a movie -direction course at the New York University. In 1994, he was commissioned to design his first project: the "Anna Molinari Blumarine" shop in London. In the same year he opened his own studio in Milan. From 2000 until 2003 he worked as Art Director at Bisazz a, contributing in the international growth of the mosaic tile brand.

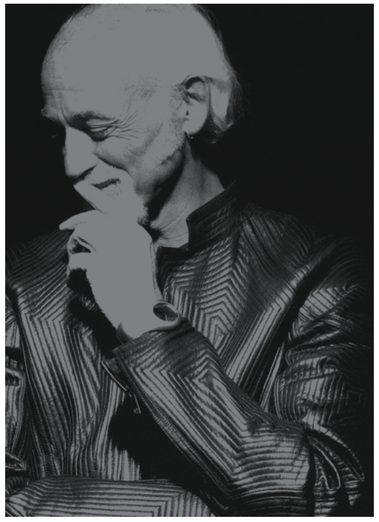

"plastic means "capable of being shaped" and that's exactly what is my feeling when I approach a design in plastic. There's an expressive freedom that rarely happens with other materials..."

Ross Lovegrove

Biophilia.

Ross Lovegrove is a designer and visionary who's work is considered to be at the very apex of stimulating a profound change in the physicality of our three dimensional world. Inspired by the logic and beauty of nature his design possess a trinity between technology, materials science and intelligent organic form, creating what many industrial leaders see as the new aesthetic expression for the 21st Century. There is always embedded a deeply human and resourceful approach in his designs, which project an optimism, and innovative vitality in everything he touches from cameras to cars to trains, aviation and architecture.

Jorge Pensi Studio

Delta.

Born in Buenos Aires in 1946, he studied architecture in his home city. He left Argentina in 1975, dreaming of new horizons and challenges. After crossing the ocean, he settled in Barcelona and became a Spanish citizen . In 1977, he went into partnership with Alberto Lievore. They worked together until 1984. He then set up his own studio in Barcelona's Gothic quarter. Pensi believes that part of his professional success is due to the intimate, close and warm relationship he has with his team and his clients, allowing shared project development with optimum results. Jorge Pensi has given conferences, seminars and workshops all over the world. Jorge Pensi has been awarded numerous prizes and has received widespread recognition throughout his career, including the Spanish National Design Prize in 1997, awarded by the Ministry of Industry and Energy for outstanding professional achievement. H e has recently become known for his other passion, music, which he had kept to himself until recently. He has released two albums as a composer and singer.

Ora-Ïto

UFO.

Born in 1977, this iconoclastic artist became globally famous at the end of the 90's by hijacking in 3D the products of the most emblematic and international brands such as Vuitton, Apple, Nike, Bic... Furthermore thanks to numerous publications in the press, the fiction turned into reality. When customers tried to purchase these imaginary products, the orders flooded Ora-Ïto's web site. This became the second digital work ever acquired by the National Funds of Contemporary Art (FNAC). During the years 2000, Ora-Ïto dedicated himself to his own studio and the creation of real products, by developing transversal projects of nearly all the business sectors of design, architecture, communication, and so on.
His creations conceal the codes of a new luxury, timeless and universal with the same minimal working drawing: evident forms to be understood in flash, fruit of his philosophy.

While studying Architecture in Florence, Claudio and Marco and some friends put up an experimental theatre group. When they decided to focus their joint efforts on design, consolidating their ties of friendship, their interest in theatre strongly influenced the setup of their new studio, drenched in creativity, sense of reality, respect and attention for the public.

Oscar+Gabriele Buratti

Kes.

Gabriele Buratti (1962), architect and professor of interior design at the Facoltà del Design of the Politecnico di Milano (2003-2010), and Oscar Buratti (1967), architect, have founded the architecture and design studio BURATTI ARCHITETTI.
The studio is transversally involved in projects of different scales, from the architecture of buildings and urban areas to interiors, from furniture and product design to exhibition and showroom design, in an intense and varied professional path, in which themes, locations, brands, people, materials and workmanship mingle together contaminating one another.
They design residential, commercial and industrial buildings, they carry out projects in historical city centres and refurbishing measures of building complexes, they design villas and interiors of working, residential, retail spaces, in Italy and abroad, with the aim of combining culture with professional specialization, experimentation with technique and an original vision with a high standard quality.

A-cero

Wing, Rest, Alma.

Joaquín Torres (*1969) – Rafael Llamazares (*1970), Spain. A-cero Joaquín Torres architects company established in 1996 whose activity focuses on complete development of architectural projects. The human team, led by Joaquín Torres and his partner Rafael Llamazares, has been growing throughout the past year ans sums up to more than 60 professionals spread out through different offices Spain , UAE Dubai, Dominican Republic, currently working on projects of different magnitude. "Our working method is based on a detailed analysis of the clients needs and the projects programme: we imagine, project and persuade. "The key to our success is that we stick to the initial idea trough out the whole process.

Roberto + Ludovica Palomba

Bones.

Ludovica+Roberto Palomba´s work has always been rich of cultural references. Their projects are derived from observations of change in human behavior. Their mission is to generate products that merge function,
innovation and longevity – intimate and emotional connections that last. "We believe that good design already exist in a sort of collective unconsciousness and our task is to mold and deliver them". A truly successful piece of design must feel fresh but not unfamiliar when it is discovered.

Estudi{H}ac - JM Ferrero

Vases, Marquis.

In 2003, José Manuel Ferrero founded estudi{H} ac to give life to all the ideas that appeared unceasingly in his head and in just 16 years he has turned his design workshop into a national and international reference. The passion he puts into his work is evident from the very beginning. Discreet, cultured, elegant and immensely creative, for Ferrero design is a way of life that keeps the mind fully active in terms of creativity.
We could say that the British term "bespoke" is the dogma that governs each of the Valencian businessman's designs, as he creates pieces and elements tailored to each project.

Eero Aarnio

Peacock, Roulette, Rosinante.

Aarnio studied at the Institute of Industrial Arts in Helsinki, and started his own office in 1962. The following year, he introduced his Ball Chair, a hollow sphere on a stand, open on one side to allow a person to sit within. The similar Bubble Chair was clear and suspended from above. Other innovative designs included his floating Pastil Chair (similar to a solid inner tube),[2] and Tomato Chair (more stable with a seat between three spheres). His Screw Table, as the name suggests, had the appearance of a flat head screw driven into the ground. He was awarded the American Industrial Design award in 1968.

Aarnio's designs were an important aspect of 1960s popular culture, and could often be seen as part of sets in period science-fiction films.[3] Because his designs used very simple geometric forms, they were ideal for such productions. Eero Aarnio continues to create new designs, including toys and furniture for children. Eero Aarnio opened his official webshop and first Design Eero Aarnio Showroom, in Helsinki. There you can find Aarnio's latest design, prototypes and latest news.

Teresa Sapey

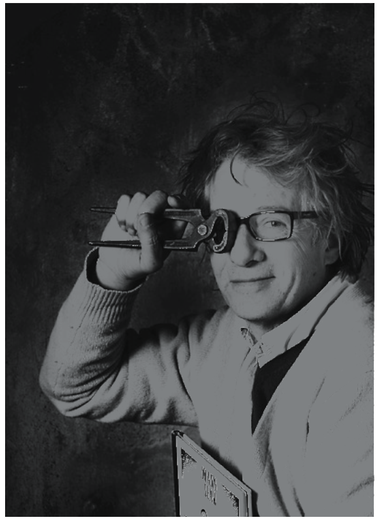

Adan, Chrismy, Chemistubes.

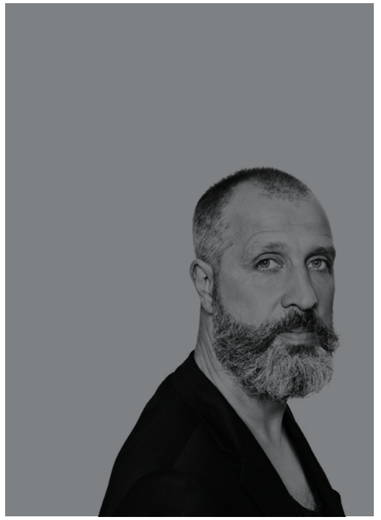

Studio Teresa Sapey is an architecture and design studio based in Madrid since it was founded in 1990. The team's guiding force streams from curiosity and energy. In fact, the range of fields approached by this practice is extremely broad: It varies from spaces to displays via furniture, graphics and editorial works. Projects not only stem from feelings, but they are also capable of transmitting these same emotions to their clients and customers. "By working with spaces my aim is to be touching and therefore render emotions palpable: Three-dimensional, even four-dimensional. No matter the feelings is, as far as it is a feeling, I would go for it! I believe that architecture should interpret, build and transmit these inspiringly and usefully"

Javier Mariscal

Sabinas, Noma, Blanca, Mora.

Javier Mariscal is, First and foremost, an image creator who develops his work using all kinds of supports and disciplines. Furniture design, painting, sculpture, illustrations, interior design, graphic design, landscaping, gardening and so on are all the object of his professional, vital activity. He has collaborated with companies such as Memphis, Akaba, Bidasoa, BD Ediciones de Diseño, Moroso, Nani Mar quina, Vorwerk, Equipaje, Alessi, Sangetsu, Magis, Cosmic, Amat3, Santa&Cole, Lali que and Phaidon. Mariscal e xpresses himself using a personal language that is complex in its intention and simple in its statements, innocent yet provocative, that he uses to innovate, risk and communicate. He enjoys provoking the eyes that look at his works and creating complicity with them.

Harry Paul

Bye-bye.

Known for projecting mysterious objects, exemplars of vibrant design of the 21st century, his resulting design approach concentrates on experimentation with materials, technologies and lines.
Harry Paul works across a wide range of disciplines, from furniture (in- and outdoor), lightning and table top, to textiles, watches and golf shoes, to architectural & interior/stand commissions and unique sculpture pieces for clients world wide.

Agatha Ruiz de la Prada

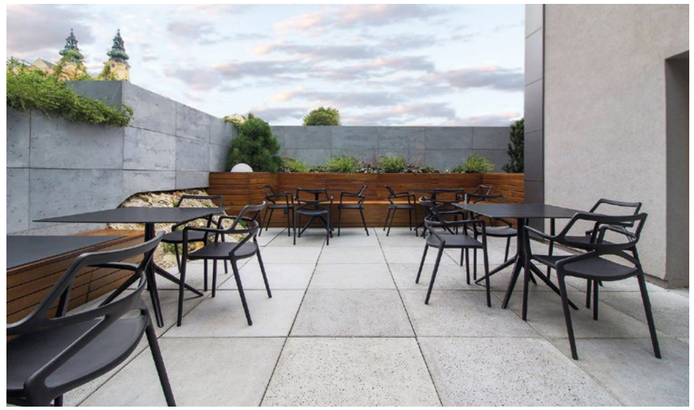

Agatha.

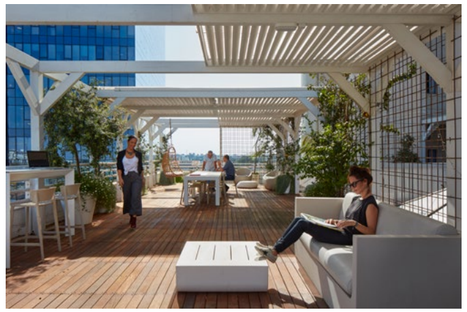

Agatha Ruiz de la Prada first stepped into the fashion world in 1981. The collection proved to be such a success that she soon opened her first studio-shop in the Spanish capital and started to participate in fashion shows in Madrid and Barcelona. Although Agatha gained a certain level of recognition early on in her career, her true fashion breakthrough came when she allied forces with one of Spain ' s most important de – partment stores, El Corte Inglés. Thanks to this partnership, the designer ' s collections were soon distributed throughout the entire national territory. Having con quered Spain, Agatha little by little started to cross borders and gain international recognition by means of her fashion shows and exhibitions and then expanded the family of products: clothes, furniture, perfumes...
